OBJECTIVES

Through excellent communication, willingness to learn and grow, and attention to detail; I believe I can make an immediate impact in a professional development role.

EDUCATION

Colorado State University *2017* Bachelors

Sociology - Criminal Justice

EXPERIENCE

INYO COUNTY JUVENILE PROBATION | BISHOP, CA *Rehabilitation Specialist* March 2019 – February 2023

Worked alongside a team to provide services to the youth of Inyo County.

- Successfully ran intervention programs for youth both in school and after school.

- Conducted group-oriented programs including Power source, MRT, Sport programs, and out of county outings.
- Continued to work and improve department processes such as transportations to court and juvenile halls, relationships with administration of school districts, and partnerships with other agencies.

Freelance Programming | Bishop, CA *Freelance*
July 2020 – Present

Self-taught programmer primarily focused on TypeScript. Worked on a variety of personal projects such as:

- Multiple Discord bots for use in discord communities, utilizing NodeJS and DiscordJS primarily.

● A handful of front-end web applications utilizing TypeScript and React. These frontend web projects include things like:
  ○ A dashboard of services that allows users to search for movie reviews, jokes, book reviews, and weather.
  ○ A discord Wikipedia website that allows users to browse discords and get a preview of what that discord, and its community, might be like.
  ○ Front end developer intern challenge provided by Shopify that utilized Open AI technology.
● Code review and mentorship to maintain, understand, and develop best practices, readability, and cohesion when writing code.
● Experience in hosting projects for production through platforms such as Heroku and Railway.
● Most projects required me to develop both the front-end and backend.

SKILLS

- TypeScript
- React / CRA / NextJS
- HTML
- CSS / Tailwind CSS
- NodeJS / Express servers
- PostgreSQL / Prisma
- MongoDB / Mongoose
